1/23/19

I am a full stack web developer with a hard work ethic and ability to adapt. Working to receive a certificate in web development from the University of Minnesota, equipped with an arsenal of skills in HTML, JavaScript, CSS, and responsive design. I have a simple goal with everything I design: make it react intuitively to users and function accessible across all platforms. In a recent project I utilized server-side APIs along with local storage and aforementioned programming languages to create a weather finding application. I look forward to utilizing my skill set for developing and maintaining websites.

Education

Robbinsdale Cooper High School

New Hope, MN

High school diploma, 2014

Graduated with honors(3.37GPA)

Lettered in Hockey

Awarded Howard Schwartz business scholarship

University of Minnesota

Minneapolis, MN

Certification in Web Development December 2020- May 2021

Learning full stack web development through Trilogy Bootcamp

Experience in API interaction, server-side development, and quality assurance

Fluent in use of HTML5, CSS3, JavaScript, jQuery, Bootstrap framework, and Node.JS

Highlighted projects

Weather Finder

This assignment involved using my skills in HTML, CSS, and JS, combined with moment.js and a server-side API to create a functional weather app.

Find it at: <https://bigc10theboi.github.io/HW6-weather-finder/>

Day planner

A planner for your day-to-day life, using common browser languages HTML, CSS, and JavaScript, this application will highlight hours 9am-5pm based on past, present, and future times while displaying the current date and saving your input tasks.

Find it at: <https://bigc10theboi.github.io/HW5-Day-Planner/>

Wheel, Snipe, Celly-NHL team tracker

An app to help track your favorite NHL teams past few games and find out a bit of team history. The app uses a third-party API to retrieve information regarding a selected NHL team and display it across the page.

Work Experience

Holiday station store #312

9705 Schmidt lake road, Plymouth, MN

- Extensive customer service experience
- Stocking and ordering
- Communicating problems and shift coverage with other stores
- Reporting and troubleshooting various issues ranging from electronic to mechanical
- Performing end of day paperwork and counting the safe
- Training employees

Sales associate hired 5/27/17

Promoted to shift lead in 2018

Last date worked 8/28/19

Starting wage: \$10.50/hour

Ending wage: \$12.30/hour

Supervisor: Hank Hadash, contact number: (763)-694-9712

Finish Line Store #2232

12341 Wayzata Blvd, Hopkins, MN 55305

- Experience managing a retail store, involving hiring and reviewing sales
- Working during the COVID-19 pandemic made me adapt everything from my sale style to the actual work I did (went from sales to exclusively shipment for a time during retail closures)
- Hired during holiday season, I had to learn the ins and outs quickly

Supervisor hired 11/11/19

Promoted to store manager on 11/26/19

Stepped back down to supervisor to attend school in October of 2020

Starting wage: \$13.25/hour

Highest wage: \$15.50/hour

Supervisor: James Rose, contact number: (630)-945-4774

Additional Skills

- Excellent mathematical and organizational skills
- Good with technology i.e. phones and computer systems
- Highly adaptable and able to work at a fast pace while under pressure
